

I started listening to K-LOVE radio just over 1 year ago. I happened onto it by chance. It has made a difference in my life more than I am able to express in this letter. As a struggling person caught up in all my own personal struggles not to mention the all the turmoil in the world, I am sending this to let you know how important K-LOVE radio is to me and others. It has become my opinion that the service K-LOVE provides is of grate value to the community. They are like personal counselors that help people through tough times and help guide them and help stablize thier lives. All this is provided to people like me free through the radio. Please do not make any changes that would jeopardize their ability to broadcast. Thank You.
